What are TeamGlos Points?

TeamGlos Points is a recognition system for all sports clubs and societies. By getting involved in different areas of student life, such as social media, SU engagement, democracy, events, and fundraising. The more points you gain, the higher your award level: Bronze, Silver, or Gold.

Sports clubs and societies have 3 shared categories to earn points in:

Marketing and Social Media

SU Comms and Engagement

Democracy and Student Voice

As well as their individual category with more specific activities.

Sports Clubs

Societies

Important notes:
- Being the first to Gold does not mean you automatically win Club or Society of the Year. These awards are judged separately at the end of the year.
- The Activities and communities team may also offer out points for additional activities across the year.

What are the prizes?

The first sports club and society to reach each status will be awarded with a prize, however, all groups that reach a status will be highlighted on social media and receive recognition at the SU Awards.

Bronze- Canva Premium for a year
Silver- £100 into club or society fund
Gold- 10 half-price tickets for the Awards

There will also be additional prizes provided through our partnerships that are relevant to the winning group.

How do we collect points?

Points are collected in two ways:

By form - you submit evidence of your activities to be approved by the team. Automatically - some activities are logged automatically, as this is data we keep track of already.

Points will be updated on the website at the end of every month, and the leaderboard will be shared on socials.

How do I fill out a form?

The TeamGlos Points Form is available on the committee resource hub and TeamGlos points website. Make sure to include evidence, or your form may be dismissed!
